

ANNUAL REPORT OF THE ACADEMIC PLANNING COMMITTEE, 1985-86

The committee met four times during the academic year. At the September meeting the committee adopted a resolution, subsequently tabled by the Faculty Senate Steering Committee, suggesting some flexibility in the application of the foreign language requirement for admission to the university. In the December meeting the committee reviewed and endorsed the Lightsey Commission's recommendation that "Requests to the System campuses for courses at off-campus locations should be subject to the review and recommendation of the appropriate campus faculty." During the January meeting the committee discussed with President Holderman the 2001 Plan and other studies of the university system. At the March meeting the committee briefly reviewed aspects of the Lightsey Commission Report and made some suggestions to the Provost's office regarding the forthcoming 2001 Plan.

Respectfully submitted,

A handwritten signature in cursive script that reads "Oliver J. Wood Jr." with a period at the end.
