

**Committee on Academic Responsibility
Annual Report 2012-2013**

August 30th, 2013

Faculty Senate Meeting
University of South Carolina

Re: Committee on Academic Responsibility

This committee is currently dealing with appeals from two students. Both students were attending the USC School of Law and were expelled due to serious violations of the Honor Code, and they have appealed the sanctions imposed on them.

As the first case was during the summer break, it was quite a task getting the committee together to have a hearing of the case, and I express my gratitude to the committee members who were able to come together for the meeting.

Both cases are ongoing and I will be happy to update the Faculty Senate with the outcomes.

It is also a suggestion that for the committees like ours, with infrequent business, we should update the procedures and resource manual annually to facilitate functioning and outcomes.
