EDITORS' FOREWORD

The twentieth Annual Survey of South Carolina Law is composed of students' analyses of cases decided by the Supreme Court of South Carolina, the United States Court of Appeals for the Fourth Circuit, and the United States District Court for the District of South Carolina during the period between January 1 and December 31, 1973. Included are analyses of decisions which appeared to influence appreciably the law of the state or present federal issues of particular significance. To allow for more extensive analysis of the cases presented, decisions of less importance have been omitted. This approach was adopted to provide practicing attorneys with a Survey that would be a more valuable research tool. Since a primary purpose of the Survey is to assist the practicing bar, we solicit your comments and criticisms so that this goal may be achieved.
