MEMORANDUM

TO: Faculty Senate
 FROM: Robert M. Wilcox (RMW)
 Chair, Academic Responsibility Committee
 DATE: October 1992
 RE: Annual Report for 1991-1992 Year

During the 1991-92 Academic Year, the University Academic Responsibility Committee took the following action:

1. Returned without action a request by the Department of Computer Science for the establishment of a departmental academic responsibility committee. The Committee determined that under current regulations any request for a departmental committee should come from the College of Science and Mathematics, rather than from the Department.

2. Approved a change in the composition of the College of Nursing Academic Responsibility Committee and a change in language regarding the purpose of the College of Nursing committee.

3. Approved a new Law School Honor Code upon condition that the new Code include language recognizing a right of appeal pursuant to University academic responsibility rules upon exhaustion of all appeals within the Law School.

4. Affirmed the decision and sanction imposed by a college academic responsibility committee in connection with a matter involving an allegation of cheating.

The Committee is engaged in a comprehensive review during the current academic year of both substantive provisions and procedures under the existing Academic Responsibility Code.

I remain Chair of the Committee for the 1992-93 academic year.
