RE: Report of the Academic Responsibility Committee

DATE: June 13, 1988

I am happy to report that no appeals were presented to the Academic Responsibility Committee during the 1987-1988 academic year.

Requests for information were provided to the College of Business and College of Humanities on several procedural questions. A meeting was held with the past chair of the Academic Responsibility Committee and members of the Division of Student Affairs to discuss the merits of a permanent record of action on hearings at the College and University level. No action was taken.
