

1. Proposal

I would like to propose that the committee propose a change in procedure to allow the registrar a little freedom to clean up the bulletin descriptions without having to get Faculty Senate Curricula and Courses Committee approval.

Problem: In the past, some added content was added to the Bulletin Description, such as the course prerequisites. The current bulletin management system automatically propagate and makes changes in certain fields but cannot make the changes in the bulletin description. This has caused problems in the past with outdated content showing up in the bulletin description.

Proposal: Allow the Registrar to remove content that shows up in other fields such as prerequisite, co-requisite, Carolina Core, etc. from the Bulletin Description without requiring a Curricula Change and Curricula and Courses Committee review.
