B. Center for Science Education

New course

SMED 537 OPTICS. (3) Optics in nature, photography, polarization, vision,  
color, lasers and holography.

*Approved* VIII.

The Committee on Curricula and Courses recommends to the Senate that the implementation of the core curriculum be deferred from Fall 1987 to Fall 1988. The Committee feels that this delay will encourage full faculty consultation and thoughtful exchanges between faculty and administration in the implementation of the core curriculum. Retaining the current implementation date would mean that all curriculum changes would have to be completed by March 1987. The Committee feels strongly that this early deadline would discourage thoughtful debate among faculty and between the faculty and the administration.

Faculty Senate Meeting  
December 3, 1986

EXPERIMENTAL COURSE - For the Senate's information only:

PSYC 380X SPORT PSYCHOLOGY. (3). The role of sports in socialization, personality development, and social competence, including: spectator-performer interactions, motivation, competition effects; and the application of psychological techniques to performance enhancement.
