

**Annual Report of the University Committee on Scholastic Standards and Petitions
2000-2001**

The committee considered four items of business during the current academic year.

In November 2000, the committee approved a curriculum change request by the Department of Economics.

In February 2001, the committee approved a curriculum change request by the College of Pharmacy.

In March 2001, the committee

- denied the appeal of a student of a college committee decision, and
- decided not to recommend a student government proposal to extend the drop date to the Faculty Senate.

Dr. Marja Warehime (French and Classics) was elected to chair the committee for 2001-2002.

Respectfully, submitted,

Gary Reeves, Chair
June 6, 2001
