## ANNUAL REPORT

University Student/Faculty  
Relations Committee

The University Committee on Student/Faculty Relations met four times during the past academic year. Some of the matters that the committee discussed were the establishment of the Carolinian Code, a request that the honor code be printed on the covers of blue books, and problems in maintaining an appropriate environment in Thomas Cooper Library. It is unlikely that the concerns pertaining to the library have been permanently resolved, but it is hoped that some of the suggestions that resulted from our discussions may prove useful for the consideration of the Dean of the Libraries.

Respectfully submitted,

Jean Rhyne, Chair
