

Annual Report  
CURRICULUM AND COURSES COMMITTEE  
July, 1991-July, 1992

The University on Curriculum and Courses met monthly. The Committee recommended for Senate consideration: 1. Curriculum Changes 20; 2. New courses 46; 3. Course changes 125; 4. Course deletions 77; and 5. Experimental Courses 6.

Faculty submitting materials to the Committee for consideration were reminded use the correct forms-not outdated ones. Faculty proposing new courses were requested to provide course objectives, learning activities and evaluation criteria before the course was considered.

For some unexplainable reason, the work of the committee went very smoothly. My theory is that the committee members were well-prepared for the meetings and stayed on task. My thanks to Professors Joe Rotter, Robert Carlsson, Robert Castleberry, Thomas Cafferty, Arthur Moser, Alexander Gilchrist and the student members Felicia Gethers and Gordon Sherrard for always "doing their homework." Also thanks to Susan Forman for her assistance.

Peggy Pickles and Jeanna Luker have my undying gratitude (and beeper number) for managing to keep track of the volumes paperwork directed to the Committee. Without them the work would have never gotten done. Thank you very much.

The new chair of the Committee is Alexander Gilchrist. He has my best wishes and hopes that the relative calm continues to prevail.

Respectfully submitted,

Jean Massey, Chair
