

Good of the Order:

Professor Holst:

Madame Chairman: I would not want the record of this meeting to be closed without adding a few words of praise for my friend Peter Becker to those the President expressed earlier.

When he followed me to the chairmanship of the Senate, we had some doubt that the Faculty Senate and, indeed, the university would survive two Germans ~~is~~ <sup>in</sup> a row. But evidently they did.

We owe Peter a debt of thanks for his dedication to the concerns of the faculty that he manifested long before he became chair of the Senate.

We also owe him thanks for the enormous energy and time he invested in the chairmanship of this body.

Finally, we owe him thanks for his commitment to the kind of service that is not always fully appreciated.
