Report of the Faculty Advisory Committee

The Faculty Advisory Committee recommends the rejection of the following motion introduced in the Senate at the May meeting:

That any grade change request shall be entirely handled by the Scholastic Standards and Petitions Committee of the College or School in which the course in question is offered;

That the Faculty Senate shall receive annually, through the University Scholastic Standards and Petitions Committee, a summary of the grade-change activities in each college and school;

That the Faculty Grade Change Committee shall be abolished;

And that this change shall become effective on the first day of the fall 1981 semester.
