Third annual Q Cup barbecue cookoff attracts hundreds

Chelsea Hadaway
THE DAILY GAMECOCK

Hundreds of people gathered at the State Farmer’s Market near Williams-Brice Stadium to sample some tender barbecue and fierce competition this weekend.

The South Carolina Barbecue Association sponsored the third annual Q Cup Friday and Saturday, a statewide barbecue cookoff featuring more than 10 teams of serious barbecuers.

Within the warehouse at the farmer’s market, booths were set up to accommodate each team’s barbecue.

The cooking started Friday night and competitors manned their cookers all night, waiting for the pork to tenderize and soak up flavor from various ingredients.

Will Shelton’s group, Carolina Traveler, has been the grand champion of the competition for the past two years, and he prides himself on the various factors that go into his award-winning barbecue.

“I cook it on a wood pit over applewood,” Shelton said. “The applewood gives it a sweeter flavor because of the sugar sap.”

“When the barbecue was done cooking Saturday morning, 99 judges sampled their special sauce.

Proposed nudist colony causing stir in Anderson

Opponents decry Christians leading ‘nudist’ lifestyle

The Associated Press

BELTON — Opponents of a proposed nudist community near Belton are trying to figure out a way to keep the 150 homes planned for the site from being built.

The Natura Christian Fellowship wants to put homes, townhouses and a campground on a nearly 104-acre site. Not all the community would be clothes-free, and the nudist areas will be enclosed and not be open to the public, said Bill Martin, an adviser to the fellowship.

But some in the area don’t want any nudists. One idea is to stop the extension of Anderson County sewer and water lines to the area because it wouldn’t be practical to use septic tanks for the 150 or so homes planned, County Council Vice Chairman Bill McAbbe told a group at Taylor Memorial Pentecostal Holiness Church.

Another idea is to change the zoning in the area. A group plans to collect signatures, but McAbbe called it a long shot.

Either way the issue will likely end up in court, County Council Chairman Larry Greer said.

“Natura Christian Fellowship has 16,000 members and follows the Quaker faith, Martin said. “It is also growing rapidly among Christians who want to live what they call the ‘naturalist’ lifestyle.

“Terra Nova Christian Fellowship perceives itself. This could have negative effects on economic development.

“Does the church have negative effects on economic development?”

“Does the church have negative effects on economic development?”

“As long as they clean up the area around it and have a shuttle that runs on schedule, it’s a good idea. If they execute it well it will work, but otherwise it’ll be totally worthless.”

“I have a parking spot in the garage so it wouldn’t really effect me that much. But I think it’ll help students who don’t have parking on campus and have to use meters.”

“I wouldn’t use it, personally. I don’t like waiting for the shuttles. It’s not as flexible. But I think that it would help the parking situation overall.”

**Knitting can stitch up humdrum, colorless days**

Associated with elderly, hobby expands wardrobe with handmade clothes

Knitting could quite possibly be the coolest thing ever created. I know that one day I have been invented, it beguiles the mind to think that someone sat down and started tying a bunch of knots in some yarn with a crochet hook and eventually ended up with a scarf or whatever they made back then.

Back then, according to wikipediacom, was somewhere around the 14th century. Knitting originated in Europe and Egypt, where knitting was considered a man's job.

But the time these days changed. And today seems to be something that everyone can enjoy, sparking everything from Stitch 'N Bitch gatherings (about out in the Mercury girls) to cool bonding moments between grandma and grandson.

I decided to start knitting the summer before my freshman year, after my family had relocated to South Dakota, and figured since I didn't want to die of boredom, I had to come up with something to do. And I had to find it quickly.

Since then, I've been pretty much obsessed, but I can't help but call this crazy for thinking

it's cool to be able to just whip up a sweater, scarf or bag with a group of friends and some imagination.

Plus, it's way cooler to have something handmade from a $4 ball of yarn than to have something that was duplicated a million times and cost 10 times as much.

Sure, saying all that stuff is easy — it's the actual knitting part that had my head spinning.

Teaching myself to knit was somewhat of a challenge. It was a fun and stressful task, and I found myself staring off at the finished product, not knowing if I had actually finished anything.

I worked diligently that whole summer, trying to figure out this whole knitting thing. I gave up a few times, threw my yarn and needles against the wall and pitched a fit. But at the end of the summer, I was able to knit a romantic and a cutting edge flair.

Aries
It’s not really natural for you to keep secrets, but if you can if you must. You pride yourself on learning to do difficult things, so stick to it. And don’t drink adult beverages, either, that would be counter-productive.

Taurus
Others look to you for moral support and leadership. Your good sense is not very common anymore — it’s quite rare. Dispense it freely.

Gemini
Even suspecting there might be problems, you need to proceed. Make sure you have an exit strategy already prepared, just in case.

Cancer
Make sure whatever you build or buy will last. You don’t have the time, energy or money to do it over again. LED: Everybody’s not as forthright and honest as you are, as you may have noticed. Trust, but verify.

Virgo
Let the dishes sit in the sink for a little while longer. You need time to think, dream and then start making lists.

Libra
Do you know how to make savings grow? If not, get a book on it and start reading. You can learn.

Scorpio
Don’t be sidetracked by a dreamer who doesn’t have a clue.

Sagittarius
Familiar routines are best for a while, as often as you can manage. Minimize the stress you have to think about; do as much as you can by rote.

Capricorn
Work together and you can have everything you really need. Cut back on all that other stuff for a while. You’ll live.

Aquarius
Your job now is to keep the overall objective in mind. Hopefully, there is one. If not, come up with one, fast.

Pisces
The more you read, the more you realize you didn’t know. One old worry is difficult to dislodge, but you can let it go. You’ve outgrown it.

Scratching out a win

The Gamecocks received the ball first each team had three possessions in the first half. Sustaining drives largely attributed to the long drives that USC had in the first half. Sustaining drives against Kentucky's defense is critical to USC's success. The defense held the Wildcats scoreless for the first half and the Gamecocks had the ball a ten play, 87-yard drive got USC up 14 points. A mistake that the Carolina secondary made on offense was moving the ball up and down the field nearly at will.
