MIAMI, Fla. —
A surprise onside kick sparked the Saints' second-half comeback. The 27th-ranked defense made several key stops, and Tracy Porter's 74-yard interception return on a pass from Brees clinched the victory.

The "Doing Business in Europe" course is one example of the school's efforts to include experience abroad.

Although the circus is in town, the show of the weekend was not in the Colonial Life Arena. Instead, it was the Carolinas Colsenion that was packed full of students, faculty and local members who attended the Haiti Relief Concert this past Friday.

The effort was a collaboration involving colleges in the Midlands, the City of Columbia and local artists. Several USC student organizations had donation booths set up at the event and were able to raise money in addition to the $1 donation at the door.

"The exact number is still to be determined, but we were presented with a check about $8,000," said Stephanie Duros, the concert coordinator for Carolina Productions. "Tickets were for general admission, and 100 percent of the proceeds benefited the American Red Cross Haiti relief efforts.

So far, USC has collected and donated more than $10,000 from various student organizations.

Get involved in the USC Haiti Relief efforts. Make a donation of at least $10 to the American Red Cross Haiti Relief Fund and receive a “Gamecock Helping Haiti” T-shirt. T-shirts are now available at the information desk on the second floor of the Russell House. Cash check and Cardina Card accepted for donations.

**LOCAL & WORLD NEWS**

**Charleston port experiences traffic decline**

Traffic through South Carolina’s largest port in Charleston has decreased 37 percent in the past five years, while shipping through the neighboring port of Savannah, Ga., has increased 82 percent.

Experts say the change is because Georgia has been more successful in recruiting large distribution centers that need to move items through the port.

“We weren’t as aggressive as we should have been,” State Ports Authority president Jim Newsome told The State newspaper of Columbia for a story Sunday.

Newsome, who took over as president of the port in September, said the state will have a second chance at luring some distribution facilities in advance of the widening of the Panama Canal. That will be complete in 2014 and will bring more ships from Asia to the East Coast, he said.

“This will be the most significant event since the start of containerization,” Newsome said. “And the state is now attuned to that.”

South Carolina has much ground to make up.

In the 1990s, while the port of Charleston focused on retaining shipping firms, Georgia and other states bought land and built the infrastructure to bring in distribution centers.

**Universities to provide application translations**

PHILADELPHIA — For some Hispanic students, navigating the college application process can be a double-whammy: Balancing high school coursework with essays and interviews, and then translating the whole system for their parents, who don’t speak English.

Some venerable East Coast universities are trying to ease that burden — and tap the looming pool of Hispanic students — by offering Spanish translations of their admissions and financial aid materials.

Bryn Mawr College, an elite women’s liberal arts school near Philadelphia, recently launched a Spanish version of its Web site. And the Ivy League University of Pennsylvania has begun conducting some college admissions sessions in Spanish.

“These initiatives are really geared toward the families ... to take some of the pressure off the students,” said Jennifer Rickard, Bryn Mawr’s chief enrollment officer.

Family comfort level is extremely important in the Hispanic community, where parental ties are strong and many are wary of sending their children away to school, said Deborah Santiago, vice president for policy and research at Washington-based Excelencia in Education.

“The parents do play a critical role in at least the aspiration of college,” Santiago said. “My parents hadn’t gone to college but they told me I was going.”

**Afghan citizens flee before NATO offensive**

KANDAHAR, Afghanistan — Minivans piled high with mattresses and clothing lined up at checkpoints Sunday as hundreds of civilians fled a Taliban-controlled area ahead of a planned NATO offensive in southern Afghanistan.

The militants, meanwhile, dug in for a fight, reinforcing their positions with rocket-propelled grenades and heavy weapons, according to witnesses.

The U.S. military has not given a start date for the operation to clear insurgents from the Helmand province town of Marjah, the biggest community in the south under insurgent control. But the military has said fighting will start soon and many residents weren't taking any chances.

American aircraft dropped leaflets on Sunday warning of the coming offensive.

UNIVERSITY OAKS

AN AMERICAN CAMPUS COMMUNITY
UK resolution over blown-up reactions

Two weeks ago following the basketball team's win against the University of Kentucky, USC's Student Government decided to write a resolution to Kentucky claiming they can play "any sport, any time" at USC. Assistant News Reporter Josh Dwyer added a short quote in his SG coverage from the heated resolution. Everyone thought it was funny, transpired, and anything but a big deal.

In the resolution, one of the lines said: "Whereas, one cannot help but notice the quite serious whatever — it came from, not disrespect.

Even though Kentucky's student government understood the joke and took for what it was worth, some alumni and Kentucky students are upset. While we are glad to see people having a good time, we aren't going to be pleased. The angry response is a little too high.

Obviously the resolution was more of a prank than anything serious whatever — it came from, not disrespect.

tt SG represents our campus with a high reputation, so they should keep that reputation.

If you find an error in today's edition of The Daily Gamecock, let us know. Newspapers and magazines are dying because they aren't worth it and most likely someone can see why Kentucky students wouldn't be pleased, the angry response is a little too high.

The Daily Gamecock is not responsible for the opinions expressed in Letters to the Editor and the Student Newsroom. Letters and guest columns should be submitted in writing and by electronic mail to gamecockeditor@sc.edu. Letters must be 200-300 words in length and include the author's name.

Benefit concert draws tiny audience

MONDAY, FEBRUARY 8, 2010

Colin Campbell

On rainy Friday night, the Carolina Coliseum was transformed into an acoustic music haven as local bands, students and speakers during Carolina Productions, which do business as Haiti concerts. This fundraiser presented an opportunity for the entire USC community to get involved and raise funds for the Red Cross’s relief efforts, such as the $10 “Gamecocks for Haiti” golf tournament. Whether the line was somewhat preaching to the choir, as the audience consisted of students there to dance, drink and enjoy the music.

More music followed with local band “Modern Disruption” taking the stage. Though mainly rock, their sound also included elements of ska and country. “Are you here for Haiti?” he asked, to a crowd that was somewhat flattered by the attention.

In the Coliseum’s current business, if somewhat flat.

The original “We Are the World” may have been somewhat preaching to the choir, as the audience consisted of students there to dance, drink and enjoy the music.

Tennis defends home courts with triumph over Charlotte

Campbell's big day yields 5-2 USC win over 49ers

At home for the first time since opening day, the No. 45 South Carolina men's tennis team came away with its third victory of the season, beating the Florida Gators 5-2 Saturday afternoon.

"I thought we played pretty well. It was good that everybody on the team got a chance to play in this one," USC coach Kent DeMars said. "We decided to hold out our No. 1 and No. 4 players. We try to do that a couple times so that everybody on the team gets a chance to play. But I think we're playing pretty decent right now." DeMars said. "We started off slow in No. 1 doubles and were down 3-0 and came back to win eight of nine games. Then he won and played well in the No. 1 singles match. Ed Kay had the most solid performance of anybody today."

"I am happy to do that, and I guess the match will go on to the last game." DeMars said. "I think we need about six wins against teams that are going to make the NCAA Tournament to make it in yourself. Since N.C. State just beat a top team, they're probably going to be in the tournament."

DeMars said. "I can start feeling good about our team. Myself, I don't want to have to win so many. Hopefully we can get those six wins before April comes around so we can make the tournament."
**YAZ LITIGATION**

IMPORTANT INFORMATION FOR WOMEN WHO HAVE USED YAZ, YASMIN, OR OCELLA FOR BIRTH-CONTROL

Recently the FDA issued a public health advisory stating that a substantiated risk of complications are associated with Yaz, Yasmin, or Ocella resulting in blood clots, stroke, heart attack and death. The FDA also issued a warning letter citing the manufacturer for misleading the public about the approved uses of YAZ. If you or someone you know suffered a blood clot, stroke, heart attack, or were, while taking Yaz, Yasmin or Ocella, you may have a potential claim against the manufacturer. Again, the most serious side effects of Yaz, Yasmin, and Ocella are:

- Blood Clots
- Deep Vein Thrombosis
- Pulmonary Embolism
- Gall Bladder Removal
- Heart Attack
- Stroke

If you or someone you know has taken YAZ and suffered an injury, you may be entitled to financial compensation. Please contact the Branch Law Firm for a free consultation at 1-800-362-3456. Please visit our website at www.branchlawfirm.com for more information.
