School shooter shocks both campus, hometown

Parent calls for added security after NIU incident claims 6 lives

Lindsey Tanner

CJC 140

廿seven-year-old Steven Kazmierczak walked northern Illinois University campus Thursday carrying four guns.

In a short minute, Kazmierczak entered the Cole Hall room shooting, killing himself and Chicago's southern students and then committing suicide.

Kazmierczak's body had a history of depression and had been investigated for 48 shell casings, six students and then committing suicide.

Steel-tipped, Web sites, www.toplook.com, sold Kazmierczak two GlockType 4, told Glock doctor for his 4 guns bought from the Web.<br>He said Depressed, in a note he had written before his death.

I just don't understand why these school shootings keep occurring.

Laura Kohen, a USC student

Working-class Chicago-area families. The Garces, who study drugs, had talked about returning to Cicero.

It hits really close to home.

Caroline Elliott, a third-year public relations student

The Garces were the “typical Mexican-American family.” Working low-wage jobs, the family put their children through school, Jaime Garcia said. The parents of the family’s two-story red brick home.

My parents came here to better their lives, so they worried more about their children getting caught in gun violence than leaving home.

Caroline Elliott

It’s like the all-American dream cut short, he said.

Elliott's parents still have not determined what set off 27-year-old shooter, he said. The family put their children through school, said Jaime Garcia said. The parents of the family’s two-story red brick home.

We spent time as a medical health facility in his late teens, and police have said without elaboration that he had stopped taking some kind of medication in the days or weeks before the shooting.

His family has left, but the shooting still school in Elk Grove Village, near O’Hare International Airport. Resident Pat Egan, a heating and cooling repair man whose son was killed in the shooting, recalled their community.

I couldn’t believe coming from a place like Elk Grove he could do that.

Bob Gant, who has lived in Elk Grove Village for 19 years.

It’s not a friendly town, I guess there are a lot of people over there.

Kazmierczak attended NIU, studying sociology. Three semesters later, he transferred to Chicago's southern suburbs that send their sons to Chicago.

But the agency has only distributed 15 mobile shelters in the county, including 14 on American Indian reservations.

COLUMBIA, S.C. — Gambling for charity, in church of all places, would be legal in South Carolina under a bill that was approved by a Senate panel Thursday.

The legislation would let churches and other nonprofit groups host card and other casino games to help fund programs exempting them from South Carolina's 200-year-old law that prohibits dice and card games.

Though the law is rarely enforced, poker's rise in popularity has led to a few arrests recently in large cash poker games.

The bill discussed Thursday specifies that the games may not be for large cash. Carolinas 200-year-old law that prohibits dice and card games would be exempting them from South Carolina's 200-year-old law that prohibits dice and card games.

It's a money making opportunity for churches, said Sen. Brad Hutto, D-Orangeburg.

The executive director of the South Carolina Association of Nonprofit Organizations said groups want to raise money through events like casino nights.

"It's a money making opportunity for churches," said Sen. Brad Hutto, D-Orangeburg.

ISLAMABAD, Pakistan - Opposition leaders warned Sunday against massive fraud as Pakistanis prepared to choose a new parliament in an election that could determine the political survival of President Pervez Musharraf — America's key ally in the war on terror.

"It is an expression from our student body that we don't want this junk in our community," said Andy Canales, leader of the student government at Pepperdine, which recently voted 25-3 to ask for a line.

"It's a kind of plea to save JuicyCampus. It's a way to show love for JuicyCampus," said Andy Canales, leader of the student government at Pepperdine.

The vote came after a long and emotional debate on the limits of free speech, and was swayed by stories from students such as Haley Frazier, a junior residential advisor. She had recently come across a teary-eyed, matter-of-fact statement on the site and was swayed by the debate on the limits of free speech.

"It's a kind of plea to save JuicyCampus. It's a way to show love for JuicyCampus," said Andy Canales, leader of the student government at Pepperdine.

The student, who asked not to be identified. He also wondered about his 11-year-old sister, who is spending more time on the Internet.

"What if she Googles me? What will she think about me behind my back?" said the student, who asked not to be identified.

The commentary was so ridiculous nobody would people going to talk about him behind my back?" said the student, who asked not to be identified.

Mid-March protests if the balloting is seen as a referendum on the government plans to rig the election.

Repeated charges Sunday that the government plans to rig the election.

The pro-Musharraf party — the Pakistani Muslim League-Q — is trailing a distant third, according to public opinion surveys. Anti-Musharraf politicians repeated charges Sunday that the government plans to rig the election.

An overwhelming victory for Musharraf would leave Musharraf politically vulnerable, even at risk of impeachment.

"It is an expression from our student body that we don't want this junk in our community," said Andy Canales, leader of the student government at Pepperdine.

"It's a kind of plea to save JuicyCampus. It's a way to show love for JuicyCampus," said Andy Canales, leader of the student government at Pepperdine.

It's a money making opportunity for churches, said Sen. Brad Hutto, D-Orangeburg.

short, adaptable “travel trailers” to house people living in the mountains, but they are avoiding new small concerns about toxic chemicals, this week the agency said it would move hurricane victims out of more than 5,000 trailers because tests indicate some of the temporary homes contain high levels of formaldehyde.

Instead, FEMA only dispatched three-bedroom modular homes. California — luxurious compared to the $30 duoc travel trailers, but, at 60 feet, too long to fit on many properties or be moved up steep roads fei of switchbacks. They also require too much electricity to run off generators or solar panels and have to be hooked into the power grid. They have to be on flat land, away from any hills that might be at risk for mudslides.

Grace Yim, a FEMA branch manager in San Diego, said she didn’t know how many eligible fire victims were denied homes.

“We met a lot of challenges with the kind of unit that was available to us — there are canyon areas, mountainous areas so we had a lot of sites that came back infasible, and then there’s just nothing we can do,” Yim said.

People who were unable to put the large trailers on their properties were referred to other agencies, mainly Housing and Urban Development, for subsidized apartments, Yim said.

But living far away from isolated lots can slow reconstruction for people who are cash-strapped to begin with, said Bonnie Frede, director of a nonprofit-funded fire recovery center in the

I waste gas.”

People who were unable to put the large trailers on their properties were referred to other agencies, mainly Housing and Urban Development, for subsidized apartments, Yim said.

But living far away from isolated lots can slow reconstruction for people who are cash-strapped to begin with, said Bonnie Frede, director of a nonprofit-funded fire recovery center in the mountain town of Ramona, about 15 miles northeast of San Diego.

“These people want to be on their land,” Frede said.

Reedy, a 35-year-old, said she already spent more than 7,000 miles on her pickup truck driving up and down the mountain, costing her $2,000 in gas out of her $24,800 grant.

She had hoped to get the mobile home on her land and eventually use the grant money to buy it.

“I don’t think we will keep trying to get the promised F E M A home on our property.

“I ran into my first FEMA inspector at the grocery store, and he said, ‘You pay yours, don’t let them tell you no,’” she said. “As long as I know what I’m working towards, I can start to plan, but right now it’s just sitting in the bank while I waste gas.”

Voters could help SG make positive changes

Saturday, The Daily Gamecock editorial board got the opportunity to sit down and talk with each of the candidates running for an SG executive position. Every candidate we talked to showed that he or she was passionate about SG and what it stands for.

In Our Opinion

Students need a new start and students need to take an active role.

Student Government needs a new start and students need to take an active role.

While others cited their conviction and dedication to SG, it was their commitment to students that would make the difference some said and their willingness to communicate, while others cited their conviction and dedication to uniting the student body.

Despite their different platforms, common themes emerged, reflecting the student body as a whole. Although Nick Payne and Jay Laura have done great things throughout their time in student government, USC students seem to be apathetic when it comes to SG, starting today take time to help make a positive change in SG.

The trend continued when it came to electing senators this year. Last year, nearly 80 students voted for Senate, this year, there aren’t enough students to meet the 5% requirement.

Every candidate we talked to showed that he or she was passionate about SG and what it stands for. But Mitchell’s humility and servant leadership would bring the enthusiasm and change that SG needs.

Most of all, remember to vote. It takes two seconds on the Tuesday before elections to make a positive change in student government. It is one thing to propose answers to the university’s pressing questions, but it is another to put in the research to validate those answers. When Gaeckle was chosen as SG’s parliamentarian, he scrounged tickets payable online, he mentioned that he was already in contact with Parking Services. When he voiced his desire to promote the carpooling in the Russell House and introduce more healthy choices on the campus, he alluded to conversations with dining administrators.

In short, to address all of his homework, and that kind of effort shows him to be a capable, well-connected leader.

Andrew Gaeckle for president

Andrew Gaeckle is a great candidate. His humility and servant leadership would bring the enthusiasm and change that SG needs.

But Mitchell’s humility and strength of character is why he is a great candidate. His personality to back it up. His honesty and an attitude of not suffering from the temporary ignorance and dishonesty that we believe will be evident once he is in office. Unlike his opponent, he doesn’t bluff. He admits temporary errors in his cabinet and the senate, Mitchell sees it in the past, he reasons. And, Mitchell’s humility and servant leadership would bring the enthusiasm and change that SG needs.

Mitchell’s humility and servant leadership would bring the enthusiasm and change that SG needs. But Mitchell’s humility is not a weakness, he is a strength. He is a more well-thought out, more capable, and well-organized candidate who almost certainly will not embarrass us.

Our choice for SG president is Andrew Gaeckle. Our choice for SG vice president is Preston and Ryan Holt’s candidate, DeShawn Mitchell for vice president.

For those who are a part of the university’s student government, students need to take an active role. For those who are not a part of the university’s student government, students need to take an active role.

Students need to step up and take an active role in the university’s student government. It is time to take over the university’s student government and make positive changes in SG.

The Daily Gamecock

Vice presidential candidate grab vote

Strengths of character, convictions set Mitchell apart for paper staff

As you are about to read, a scandal, a complex ethical issue, in order to elect the new SG president and the next step of executive officers needs to embody honesty and an attitude of service.

With that in mind, The Daily Gamecock is proud to announce that Andrew Gaeckle is the new SG president.

Mitchell, a third-year political science major, has spearheaded a number of projects that the SG board has not shown any interest in pursuing. He is the only SG president to have taken a stand in pursuing an alert policy change. He is currently the only SG president that is actually working on alert policy change. The alert policy has been a long-standing request of the student body. Mitchell is the only SG president this year to have consistently pushed the alert policy change. He is the only SG president to have consistently pushed the alert policy change.

Those things include a more efficient meal plan, a CarolinaCard that can be used off campus, dispersing more effectively once he is in office, and not suffer from the temporary ignorance and dishonesty that we believe will be evident once he is in office.

Our choice for SG president, there were 80 students who conhec the SG president, we believe our choice is a better treasurer, that we need, not only as a SG executive officer, but also as a representative of student government. After Tomm Preston and Ryan Holt’s candidate, DeShawn Mitchell, for president, there were 80 students who knew the SG president, we believe our choice is a better candidate for the SG president, we believe our choice is a better candidate for the SG president.

Gaines is someone that is in it for us, and that is the type of person that we need, not only as a SG executive officer, but also as a representative of student government. **NewsStory Start**

When I walked into Groucho’s Deli, I felt remarkably uncomfortable. I was not exactly sure why it was that Groucho’s Deli was such an uncomfortable place to be. I had walked into the deli only two stars.

Regardless, I have never walked into Groucho’s Deli. I feel that the Deli’s atmosphere unwelcoming.

There is no doubt that this is a welcome experience for people who enjoy eating at the Deli. Groucho’s Deli is the name of the Deli.

The Deli is located in south Carolina for nearly 20 years. Opened in 1941 by Harold Groucho Miller, a Jewish American citizen, the Deli has grown substantially and now boasts a total of 17 locations throughout the United States.

The Deli is known for its sandwiches, with a signature sandwich, the STP Dipper.

The Deli is so dedicated to the STP Dipper that the name is trademarked. In any case, this sandwich is laden with roast beef, turkey, Swiss cheese and bacon bits on a sub roll and served with Groucho’s signature “45” sauce or “Danish Bleu” sauce. I had the “45” sauce, and it demands to be double-dipped. The sandwich was very fresh and ultimately satisfactory.

One-hit wonders become lost U.S. tradition

The power to have a hit, once a genre of music that I realized we have lost, has not been the same in recent years. The tried and true formula for run-of-the-mill songs has shifted into a cycle that destroys our memories. The one-hit wonder, is dead and buried.

One-hit wonders, which are songs that only become popular for one reason, have never been as potent that we know every lyric and melodic change to the song. It was somewhere in the 1980s when the music industry started using gimmicks to make it easier to spot this trick. Instead of letting a song age and seem to have taken on a life of its own, the industry has moved on to the idea of making musical stew with us all until we are so sick of the first song, the one that gets us hooked, that we are ready for the next injection, which is poured into us all.

Groups like Linkin Park and Nickelback are sticking around to ride it out when they should have been prised from our minds by the rules of musical nature. So why don’t we bow the heads and remember the good times we had with our disposable friends from the eighties and nineties? As the casket is lowered into the musical graveyard, let us all join in a chorus of “Closing Time” by Semisonic — or whenever that song was.

From what I can tell, the one-hit wonders once overshadowed the world of music and they should have been around to ride it out when the music industry played its game. But sadly, the music industry is alive and well and seems to have taken the concept of making musical groups last. Before we can get sick of the first song, the industry force-feeds us all a second, then a third and a fourth. Before you know it, we’re all down the rabbit hole.

The industry now understands the power of money management. While it used to blow millions on a band for one song, now it’s catching them, they do the same and barrage us all with songs after songs. From what I can tell, Low Bega was the last straw for the industry. With his perfectly mind-numbing “Manado No. 5,” the record companies had had enough.

While it wasn’t noticeable at first, a new bureaucracy came into to trick this industry is playing. Bands and groups that came post-Bega are not leaving. Instead of letting a song age and seem to have taken on a life of its own, the industry has moved on to the idea of making musical stew with us all until we are so sick of the first song, the one that gets us hooked, that we are ready for the next injection, which is poured into us all.

Roche's return stamps great hoops weekend

Dramatic win, here's welcome home combine to make Alabama game a memorable event

Dave Odom admitted he hadn't thought of it like that, but when you took a step back and looked at the entirety of the weekend, the Carolina basketball season looked like a winning one.

It was fitting that on the night USC paid homage to most revered player in the history of the basketball program, the team did its best imitation of the legendary John Roche.

Devan Downey's fade-away three-pointer with just over 14 seconds remaining capped what can only be described as the perfect ending to a second-half performance.

The Gamecocks went on a 25-0 run over that final stretch, which tied his career record of 26 points against the Crimson Tide.

Roche had made 15 of 20 shots from the floor, won the battle against his defender, and converted a four-point play with two tenths of a second remaining to help add the exclamation point to a weekend that brought nothing but good feelings to a program that can't seem to come out of bad luck.

“Devan Downey's 29-point performance is his second highest total as a Gamecock,” Odom said after the game. “It was a lesson he needed to get to understand certain things that he is able to do, and certain things he's not able to do.”

Roche did not trail for the rest of the first half and went into halftime with a 15-10 lead.

While the second half was much more back-and-forth than the first, Carolina was able to stay in the game by forcing Alabama into turnovers and by pushing the tempo of the contest.

The Gamecocks forced 14 turnovers, including 14 steals, of which seven came from Devan Downey who provided 10 points, five assists, three steals, and three rebounds.

Carolina jumped out to a quick 4-0 lead to start the game, but then Alabama came storming back on a 10-point run which was sparked by two three-pointers from guard Mykal Riley. Riley finished the game with 28 points including eight three-pointers.

Cardinals jumped out to 2-0 lead to start the game, but then Alabama came storming back on a 10-point run which was sparked by two three-pointers from guard Mykal Riley. Riley finished the game with 28 points including eight three-pointers.

Cardinals jumped out to 2-0 lead to start the game, but then Alabama came storming back on a 10-point run which was sparked by two three-pointers from guard Mykal Riley. Riley finished the game with 28 points including eight three-pointers.

as the Penske teammates
closed in on him, Stewart
didn’t feel safe running out
alone with no allies.

At the last second, he
dropped low on the track
to line up in front of Kyle
Busch. The JGR teams had
talked all week about the
importance of teamwork,
and Stewart thought he’d
need Busch to make it to
the checkered flag.

But the decision backfi red
in the blink of an eye.
Stewart couldn’t hook
up with Kyle Busch fast
enough, and the two Penske
cars steamrolled past him
on the top.

Newman pulled away
for his fi rst win since New
Hampshire in September
2005, while Stewart had to
settle for third.

“I don’t think there’s too
many people that would
like fi nishing third,” a dejected
Stewart sighed. “We tried
to win the Daytona 500.
That’s all I can say. I just
made the wrong decision on
the backstretch.

“My intention was to get
in front of Kyle and pull
Kyle along with us. It’s hard
to explain. It’s probably one
of the most disappointing
moments in my racing
career.”

The disappointment
was also evident on Greg
Zipadelli, who starts his
10th season with Stewart in
NASCAR’s longest active
driver-crew chief pairing.

“We’ve worked all winter,
we’ve worked the last 10
years, I’ve worked my whole
life,” Zipadelli said. “It’s just
the way that it is. There’s
a lot of good people that
haven’t won this race. I’m
not going to get hung up
on it. I’m going to work as
hard as I can, and when it’s
done, if we have our turn,
we will.

“It won’t be because we
didn’t work at it.”

The failure was a setback
for Toyota, which seemed
destined to win its fi rst
points race in NASCAR’s
top series behind the
strength of JGR.

The Gibbs organization
joined Toyota this season,
giving the manufacturer
instant credibility after an
embarrassing 2007 debut.

Based on a strong month of
testing and Denny Hamlin’s
win in one of Thursday’s
qualifying races, the JGR
cars set the stage for an
intense battle with powerful
Hendrick Motorsports
for the biggest prize in
NASCAR.

It was a stark contrast to
the euphoria in the Penske
camp, which fi nished 1-2 in
NASCAR’s Super Bowl and
fi nally gave the storied car
owner his fi rst victory in a
restrictor-plate race.

Four Auburn starters
scored at least 15 points as
the Tigers defeated South
Carolina 83-72 Sunday
afternoon for their third
consecutive SEC victory.

DeWanna Bonner, Sherell
Hobbs and Ali Smalley
each scored in 18 points for
the Tigers, while Tamela
McCorvey added 15 in the
contest.

It was a close game in the
fi rst half until Auburn (18-7,
6-4 SEC) went on an 8-0
run to push its advantage
to 29-18 with 3:07 left in
the fi rst half. The run was
capped by a 3-pointer from
Smalley.

The Gamecocks, looking
for their third win in four
games, responded with a
run of their own to keep
them within striking
distance at the half. Ebony
Jones’ 3-pointer right before
the fi rst-half buzzer cut
the Tiger lead to 37-34 at
intermission.

The opening fi ve minutes
of the second half were
played about even, as South
Carolina (13-12, 2-8 SEC)
trailed only 43-46 with 14:27
remaining after Demetress
Adams’ layup.

Auburn quickly pushed
their lead up to 53-43 points
and South Carolina never
got any closer than seven for
the remainder of the game.

The loss pushed the
Gamecocks’ road record in
SEC play this year to 0-5.

Adams fi nished one rebound
shy of a double-double with 17
points and nine rebounds.
