Senate fills seats for first time

Student Government confirms final spots, requests SEC change

Drew Brooks

In what Senate President and Student Body Vice President Ryan Holt called “an unprecedented day for the Student Senate,” the senate chambers were filled to capacity Wednesday.

“Watching and waiting for the day we could fill these seats,” Holt said. “You’ve made history today, and we appreciate that very much.

With three tapers of the gavel, Samantha Astair, a second-year biology student, Chris McNamara, a second-year political science student, and Stephanie Ziejewski, a second-year chemical engineering student, were confirmed as the Student Senate’s first three members and sworn in by Chief Justice Andrew Collins, a third-year student.

Carole Muedder, Chair of the Powers and Responsibilities Committee and a third-year international studies student, said Astair was “more than qualified” for the seat. All three were interviewed by the committee and approved to stand before the senate.

With fullness, Muedder said her committee, which is charged with interviewing potential senators and filling vacancies, no longer had a job.

She said the Powers and Responsibilities Committee would now look into filling vacancies in the senate.

Also on the senate floor was a bill, introduced by Seniors Allen Klump, a fourth-year political science student, and Nick Payne, a fourth-year finance student. The bill would encourage the South Eastern Conference to allow member institutions to decide how to celebrate victories.

According to the sponsors, the SEC is the only conference that tells its member institutions how to act after games and imposes fines on schools that don’t comply.

USC President Andrew Sorenson is currently serving as the president of the SEC.

The current SEC sportsmanship code went into effect Dec. 1, 2004. First offenses are penalized by $5,000, second offenses by $25,000 and all subsequent offenses by $50,000.

The code says that “access to competition areas shall be limited to participating students, student-athletes, coaches, officials, support personnel and properly-credentialed individuals at all time. For the safety of participants and spectators alike, at no time before, during, or after a contest shall spectators be permitted to enter the competition area.”

Klump said the legislation would ask the SEC to “give individual schools the freedom to decide how to celebrate victories.

With a full senate, Muedder said her committee, which is responsible for filling vacancies in the past, most notably after an upset victory of then-No. 3 Kentucky’s basketball team in early 2005.

Klump and Payne want the bill to be passed.

“More friendly to fans.”

Instead, he wants a code of conduct to be passed.

Students to violate the code.”

He added that the bill is in no way “encouraging students to violate the code. Instead, he wants a code of conduct to be passed.

The last thing we want to do is be like Clemson,” Klump said, where they rush onto the field after every victory.

The school has already passed a code of conduct.

“We don’t want our students, all options to defend our nation.”

Bush unapologetically defended his approach to the Commander in Chief’s assertion three years ago that the threats from North Korea and other nations.

WASHINGTON — President Bush unapologetically defended his approach to North Korea’s nuclear weapons program Wednesday, pledging he would not change course despite contentions that Pyongyang’s apparent atomic test proved the failure of his nearly six years of effort.

Bush rejected the idea of direct U.S.-North Korea talks, saying the Koreans were more likely to listen if confronted with the combined threat of economic and military sanctions.

The president said he was not backing down from his assertion three years ago that “we will not tolerate nuclear weapons in North Korea.”

He said the U.S. “reserves all options to defend our friends and our interests in the region against the threats from North Korea,” a stance he said was consistent with the administration’s overall policy.

In the past, Bush has said North Korea’s claimed nuclear test continued reverberating around the world.

Parking changes ready for spring

Hourly spaces in Bull Street garage will be separated from decal areas next semester

Nick Needham

Changes are coming to the Bull Street parking garage next semester.

To help ease congestion on the hourly parking levels, Parking Services will install a barricade on level four during Champions break.

The barricade will separate Bull Street garage decal holders from accessing the top three levels of the garage.

Derrick Huggins, director of Vehicle Services and Parking Management, said a new walk-up ticket window will also be installed at the Devine Street entrance, so students can pay their tickets before returning to their vehicles.

“Once students have their ticket validated, they won’t have to stop on the way out of the garage.”

Huggins said.

The new changes will separate roughly 2,000 spots in the garage for hourly parking.

Huggins said a major goal of dividing the garage is to try to get decal holders to park in the top space and visitors to park in the bottom space.

“We don’t want our visitors and people unfamiliar with the garage to have to wander around searching for their car, especially at night.”

Parking changes

While easing congestion in the garage is a major goal for Parking Services this semester, other improvements are in the planning stages.

To help traffic running right off Blossom Street onto Bull Street, Huggins said he is converting a right-turn only arrow to the traffic light.

Pedestrian crosswalks are also being planned across Blossom Street at the Greek Village to help students cross the busy street safely.

With the Carolina Shuttlesystem peaking at a record 5,000 riders a day, Parking Services is planning to purchase three additional shuttle buses in addition to the three they purchased this year.

Huggins said this would reduce wait times and help them get commuter students to class quickly, but he acknowledged students commuting to campus for only one class or a quick trip to eat would
**Raleigh counts on Monet to increase city revenues**

*The Associated Press*

RALEIGH, N.C. — Chef John Torode of the U.K. would know how many ways he can combine cheese, butters, and apples.

Toder is chef and owner of Blushington, one of the businesses hoping to take advantage of the 150,000 people expected to see the “Monet in Normandy” exhibit that opens Sunday at the North Carolina Museum of Art.

The show includes 50 works of impressionist painting, and is the type of exhibit more commonly seen in a major museum rather than a small city such as Raleigh.

In his restaurant earlier this week, Toder was still putting the finishing touches on the first dish that will use Normandy’s best-known butter — Boursin, Camembert cheese and apples, including Calvados, the apple brandy.

“I’m just extremely excited for the city of Raleigh to have the opportunity to see this show,” Toder said. “I don’t really believe the general public realizes what a big deal this is for the town.”

THE BILE GEEK

After Tuesday evening’s performance at the Koger Center for The Arts, comedian Bob Saget now officially owns the USC student body.

Saget, most prominently known as the father figure of Danny Tanner on the classic television show “Full House,” and the host of the original sitcom “America’s Funniest Home Videos,” walked on stage and showed an ecstatic crowd who the real Bob Saget is.

Saget began his routine by rapping up every hilarious bit of saget’s mouth. His lets a few no one unchallenged. From behinds “Full House” neighbor Gimby Gubbler to his own real-life daughters, it was one side.

Even the audience members were not left untouched. Saget noted that one student has sexual encounters with certain hardy animals and that another shared private regions look like E.T. up close.

Saget’s performance was filled with many four-lettered words, Saget then performed in a play when a teenage walked up to the statue. The pair decided to get into “Full House” and scared the kid into thinking he was in some unknown environment.

Jokingly, Saget decided to tear apart dirty girls, who also happened to be one of his daughters. She said they are always looking up and never pay attention in the dirtiest way possible.

Choosing the name of the song, “Dirty,” Saget then took the mic and started rapping.

Saget concluded his performance by saying that he had done loads more. A man replied that he had seen much more.

Another taste of Saget’s performance was taken a note from Lenny Bruce and George Carlin.

Anyone can be vulgar, but to wield in such a way that proves comic success is a rare thing.

Saget’s performance was filled with many four-lettered words. This was the point in the performance where a man replied that he had seen much more.

Another taste of Saget’s performance was taken a note from Lenny Bruce and George Carlin.

HOROSCOPES

ARIES You can't do everything simultaneously, no matter how good you are. Some of it maybe, but not all of it. Set priorities and stick to them. First, delegate.

TAURUS It's no sin to be wealthy, if you don't let it go to your head. Frugality is a virtue, and so is intelligent shopping. Practice both now.

GEMINI Tell the truth about what you want to accomplish while you're here. You'll become best at the subject you really want to practice.

CANCER You can be obsessive about details when you want to be. That's suggested now, because it looks like something's not right.

LEO Schedule significant private time for early next week. Meanwhile, make sure your team knows exactly what to do.

VIRGO There's a downside to being in demand. Business cuts into your private life, but don't despise. There's less of this once you have the routines all worked out.

LIBRA There's a downside to being in demand. Business cuts into your private life, but don't despise. There's less of this once you have the routines all worked out.

SCORPIO Go into stores intending to only get the best deals. You may be able to get out before you go over your limit.

SAGITTARIUS Toss the ball to your teammates. One of them will be able to score. It doesn't matter who does the closing, as long as it gets closed.

CAPRICORN Your routine needs modification to carry a heavier load. Ask for help, but still try to anticipate anything that can go wrong.

AQUARIUS It seems like everybody wants a little bit of your time. Be nice to your fans and followers, but don't let yourself get distracted.

PISCES You'd like to help your friends get along, and maybe you actually can. Just don't quit, OK?

Inferno's Mann on fire

First-year head coach takes over Columbia's pro hockey team

Alex Riley

SPORTS EDITOR

Thursday, October 12, 2006

In tough SEC, sitting at .500 wouldn't cut it

Head volleyball coach Nancy Somero said town with Matt Mcauliff, GM of Dos Santos Capital City Sports Talk on Tuesday from 6 to 9 p.m.

Inferno volleyball is one of the year.

During this offseason, Gustavson had the plans and home of playing on the USA under-20 National Team. They traveled to Northern Ireland and Canada to play in the Milk Cup. USPC head coach Mark Brison said the international experience could give confidence to his team. "Anytime you have an opportunity to play at a high level, it helps you develop as a player," Brison said. "This was great training experience and game experience as well for Mike."

Gustavson also knew that having a strong defense was just as important, and he said it gave him the confidence he needed to go out there and make plays. "If I make a mistake, I know that they are right there and if they make a mistake, I am there for them as well," he said. Brison had nothing but praise for his goalkeeper, and he emphasized how important Gustavson was to the overall defensive effort. "Mike can come up with the big plays and make them," Brison said. "He is very quick for his size. When you have someone playing well in the last line of defense it gives us confidence."

Before the season started, Gustavson added another accolade to his already impressive resume: pre-season All-American by Soccer America. Just last week, the star goalie received more recognition as he was named the Conference USA Defensive Player of the week. "They don't affect me; Gustavson said. "Last year, I was part of that. I think the goalie should be a playoff spot."

The 2006 edition of the Inferno has earned the distinct honor of being the last athletic endeavor to play in the historic Carolina Coliseum, an honor that Mann thinks is not lost on the fans. "It's a good atmosphere," Mann said. "When we do get some decent crowds in here, they're loud, and it's a small building … It's good that we'll be the last major event.

With a preseason match-up tonight against the Charlotte Checkers at 7:00, Mann is ready to prove he can be a successful coach and ready to give Columbia hockey one last time.

"I'm a football fan, I'm a baseball fan, but I truly believe that hockey live is the most exciting sport," Mann said. "I'm certain that once (people) come here and see the show that's put on by our players and Inferno staff, it will be an exciting event."

Mike Gustavson clears the ball during a match this year.

Mike Gustavson in only second season, Gamecock star goalie gets national acclaim

When thinking of USC men's soccer goalkeepers, the first name that probably comes to mind is All-American Brad Guzan. Well, Gustavson is now in the running. USC's sophomore Mike Gustavson from Aiken, S.C., is making a name for himself.

Gustavson started last year after Shonda. Which is either good for our conference and a lot of teams which is either good for our competitive conference this year, we have three freshmen, two new head line two or three seniors.

Shonda Cole has been incredible for us, but we're going to go home. I've coached All-Americans, but we've never had a player on a team who can do what she does on her own. Other teams that I've coached have with All-Americans, but we've never had three or four other All-Americans on our team.

On playing at home: We've only been at home in one game out of the past six. Being back at home this weekend, and being in front of our home crowd, it's going to be well is really what the team needs. I hope that's reflected at the end of the year in the NCAA tournament.

On consistency: We just haven't been a very consistent team, and some of that is that we're pretty young out there in a lot of positions. Sometimes we have three freshmen, two new head and one senior.

On the SEC: We just haven't been a very consistent team, and some of that is that we're pretty young out there in a lot of positions. Sometimes we have three freshmen, two new head and one senior.
