The idea of a "minority" often brings to mind peoples' differences in race and religion. But for Bryant White, the founder of A.Bevy.Productions, Inc. and creator of the Marionette Theatre, he has a bold vision for the classic fairytale, so the theater turned to Kickstarter to make his vision a reality.

Every project started on Kickstarter has a set deadline to solicit donations of any type to its backers, including free autographed posters, and the proceeds are used to pay rent for the theater and its operations. "I think even a young audience can see the merit of it all," said White, a fourth-year management student. "This show is unique for us, as we were trying something new."

Since 1988, the Columbia Marionette Theatre has entertained audiences of all ages, and it's done so with funding from the City of Columbia and other art-related groups. But to put on "Hansel and Gretel," the theater turned to Kickstarter to make its dream a reality.

Lynn Hill, its artistic director, has had a bold vision for the classic fairytale, but the theater turned to the Internet "crowdfunding" service Kickstarter to make its dream a reality.

FILM • Continued from 1

On each Saturday and Sunday, two films will be chosen as the finalists to be judged by a panel of USC media arts professors and Columbia Film Society members.

Films will be chosen based on the criteria of purpose, originality, acting, writing/screenplay and musical score. They are weighted by importance in that order, and “purpose,” the largest, will comprise 30 percent of the overall score.

White said the competition is open to as many participants as enter and pay a $20 entry fee. The winners will receive a $500 grand prize paid for by the entry fees.

A lawyer is speaking of the World Wide Web. The Internet-savvy population has recently found a new way of browsing, searching, and finding people.”

“Being arrested on a small charge like underage drinking should not be a mistake that follows us around for the rest of our lives,” said Karen Clarke, first-year political science student.

“Some professors require we buy the Scanntron sheets and blue books. At USC, we are given lots of free books. Take, for example, season football tickets. But if things as simple as test-taking materials can be provided for free, why isn’t something as asinine as seating arrangements handled with more efficiency?”

Another problem is that “Mix It Up” Day requires a lot of energy. Some professors have been campaigning to fight this way by getting some 200 schools to withdraw from the “Mix It Up” Day program. Actions such as “Up” Day tries to prevent and stop. This it is a sad day in America when one cannot be a part of the election process. Again, these policies are in place to remove the blue books and Scanntron sheets from every test. As citizens and students who make up a typical American school’s cafeteria population has recently found a new way of browsing, searching, and finding people.”

Lincoln Street, is the second shop Man. This renovated shoe store, on addition to the area, The Peanut have successfully combined all of and her husband Chris Hinely and sweet smells. Carrie Hinely colorful shops, delicious tastes and caramel clusters, also prides itself on offering affordable goods and one of the multicolored walls to the candy shoe racks as candy shelves. From the couple’s three sons. The character of the store as a child to continue on for the future.

The Peanut Man on Lincoln Street was completely reconstructed with the help of friends, family and the couple’s three sons. The character of the old shop was kept intact, though, using original wood beams and shoe racks as candy shelves. From the multisided walls to the candy basket arrangements, they created every part of the store from scratch.

An entire group effort is what made the store possible, Carrie Hinely said. "It was pure faith," said Carrie Hinely. "I turned around to my husband and said, "I was 32 when I started cooking; up until then, I just ate." — Julia Child

Kranz concentrates on coach’s objectives

The Daily Gamecock

October 17, 2012

As USC gets ready to face its third top-10 opponent in three weeks, wide receiver Bruce Ellington said the team is fully aware of the magnitude of this weekend’s game and that the players have not allowed last week’s loss to affect their preparations.

“We’re moving on from last week,” Ellington said. “That game was last week. Even though we lost, we just have to focus on this week and focus on the task at hand. We have to go to Florida and try to get a win.”

With a spot in the SEC Championship on the line, senior wide receiver DeVonte Holloman said the Gamecocks are looking forward to their battle against a division opponent.

“We didn’t play awful on Saturday,” Holloman said in a release. “But we know how much more important this game is, being against an SEC East opponent. So the intensity has picked up a little bit.”

USC looks to take over lead division

Coach Todd Sherritt has been very vocal about wanting this team to go into South Carolina with a win.

“It’s pretty vital that we go into South Carolina with a win,” he said. “If we can get the win and step up and play well, we’re going to be very happy with ourselves.”

Sherritt and the Gamecocks are 5-0 in the SEC this season, and Sherritt said his team is looking to take a step toward a trip to Atlanta, where they played the Swamp with a win, they will turn to other goals for the day.

“We didn’t play awful on Saturday,” Ellington said. “That game was last week. Even though we lost, we just have to focus on this week and focus on the task at hand. We have to go to Florida and try to get a win.”

Senior tailback Marcus Lattimore, who ran for 35 yards last week, had 212 rushing yards against UF as a freshman.

USC is confident and determined to defeat Florida

Sherritt says sophomore diver has potential to win conference championship

Paula Berkovich

After the swimming and diving team’s first meet of the season against Texas A&M and UNC on Saturday, sophomore Patricia Kranz walked away with first place on the 1-meter board.

But the real victory for Kranz was not in the results, but in achieving one of her goals.

“Coach Todd Sherritt gives his divers a goal for each meet — never a score, but a mechanical objective dealing with the execution of a certain turn or maneuver. With his advice in mind, Kranz and USC head diver Paulina Berkovich have set for her.

“It may not keep all the pressure off the divers, but it does keep you thinking about what you want to do. When they’re not thinking about the scores, they’re thinking about the jumps. If you’re trying to do a dive to do that when you’re already thinking about something else, it’s hard,” said Kranz.

Kranz walked up to a diving board at freshman in high school after competing in gymnastics for a year. As she practiced, Sherritt said he told her, "Tiny, you need to focus on the board, not on anything else.”

She dedicated herself to diving, adding that she has the talent to be one of the best divers, but also the desire to work hard and go in this week with the same intensity that she had last week.

“All I know is that I want to be out there and get the objectives.”

Sherritt said he was confident Kranz would achieve her goals.

“She’s the kind of person that once she makes a mistake, she won’t make it again,” Sherritt said. “I know the next time if something doesn’t go right, she’s not going to become competitive but go in this week with the same intensity that she had last week.”

Sherritt said he was confident Kranz would benefit from the experience she gained.
